## Objective

Results-driven IT professional with 7 months of System Engineering experience at Infosys and over 6 years of freelance IT support and hardware maintenance. Skilled in diagnosing and resolving complex technical issues across hardware, software, and network systems. Strong analytical and problem-solving abilities, with a proven record of delivering reliable, independent client support. Seeking to apply technical expertise to enhance operational efficiency in a dynamic environment.

## Experience

- Infosys Limited, Mysore** 10/2024 - 04/2025  
System Engineer
  - Underwent comprehensive training in Java, HSQL, Data Structures.
  - Gained hands-on experience with tools such as Eclipse, Git, and Postman for project development and debugging.
  - Learned and applied key concepts of Software Development Life Cycle (SDLC) and Agile methodologies.
- InternPe** 06/2023 - 07/2023  
Web Development Intern
  - Developed and maintained responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Self Employed** 2017 - Present  
Freelancer
  - As a selfemployed IT professional, I have provided comprehensive technical support, software development, and hardware maintenance services to a wide range of clients. My work involves diagnosing and resolving hardware/software issues, setting up and maintaining networks, and developing smallscale custom software solutions tailored to client needs.
