Indonesia

SKILLS

- Operation welding robots
- MIG/MAG Welding
- FCAW Welding
- SMAW Welding
- Grinding
- Flame cutting
- Communication
- Teamwork

LANGUAGES

- English (Basic)
- Korean (Reading)
- Indonesian

PROFILE

I have experience in the manufacturing industry, specifically in muffler production, with 3 years of work experience and an additional 6 months of internship. I am skilled in MIG/GMAW welding for stainless steel and have experience welding thick steel in the 3G position. I enjoy communication and learning foreign languages. I am not afraid to ask questions in order to improve myself and correct mistakes.

WORK EXPERIENCE

PT Dharma Polimetal

2022 - 2023

- Robot Welding Operator (Internship) 6 Months
- Operated and monitored welding robots in a production environment.
- Assisted in setting up welding parameters and ensured smooth robot operation.
- Performed basic troubleshooting and reported abnormalities.
- Maintained safety and production efficiency during operations.
- Rotary Catalyst Muffler Operator (Contract) 2 Years
- Operated rotary catalyst machines for muffler production processes.
- Ensured proper installation and positioning of catalyst components.
- Monitored production quality and consistency according to standards.
- Performed routine checks and basic maintenance of machinery.
- Worked closely with quality control to ensure products met specifications.

PT Sakura Java Indonesia

2017 - 2019

Welding Repair - Muffler Production

- Performed welding repair for motorcycle muffler components.
- Conducted MIG/GMAW welding on stainless steel and steel materials.
- Repaired welding defects to ensure products met quality standards.
- Maintained high attention to detail and prioritized product quality and durability.
- Followed work instructions, safety procedures, and quality control standards.
- Collaborated with team members to improve welding results and reduce defects.
