Profile

Experience in Electrical Construction and Maintenance projects Oil & Gas, Refineries, Tie-in & Wellhead Platforms, Petrochemical, and High Race Building in Engineering, Construction, Inspection, Testing, and Pre-commissioning

Executed various projects as per approved plans, safety, quality & procedures standards implementation, allocation of team member activities, monitoring deviations & troubleshooting

Anchoring on-site construction activities to ensure completion of project within the Time & cost parameters and effective resource utilization to maximize output Preparing monthly progress reports entailing progress & details for engineering, procurement, construction, and commissioning activities

Conducted Health, Safety & Environment (HSE) meetings for Engineers, provided technical support for HSE, issued agendas, and minutes and prepared monthly and yearly.

Education

B Tech, Electrical and Electronics Engineering 2013 - 2017

International Institute of Engineering and Management, Kerala, India
International Institute of Engineering and Management; Indian
Institution of Engineers Board (IIE) Kerala, India

Diploma in Electrical Engineering 2002 - 2005

Institute of Engineering, Kerala, India
Institute of Engineering, Board Technical Education Kerala, India

Employment

Electrical QA/QC Engineer Aug 2024 to continue 2025
SHINBO Engineering, Hyundai & PKN, ORLEN Project, Poland

Electrical Engineer Jan 2023 - Jul 2024
SANJOSYS DIGITECH PRIVATE LIMITED, Visakhapatnam, India
Installation, Inspections, and pre-energization of 2000 KVA Generator, Transformers, Switchgears, MCC, Control and power panel, LP, ELP, and SOLAR Panels, Racks, Battery banks UPS, Rack, Cable Trays
Cable Trays Primary and Secondary Cables and wires Laying, Cables Glanding Termination
Lighting pole, Lighting & Small Power System Installation, Normal Lighting and emergency lighting systems with power distribution board
Pre-energization & Lux Level Measurement, Convenience Sockets and power outlet Functional Tests, and Phase Sequence
Monitoring the overall project, including telecommunication and CCTV systems, grounding and lighting arrestors, and fire alarm systems

Electrical Engineer Oct 2022 - Dec 2022

Hyundai, SK, GS, JV, Karbala, Iraq
Monitored Overall project E&I Punch Clear implementation & documentation of quality systems and managed techno-commercial activities relating to O&M contracts and procurement of utility equipment
Managed project activities involving working on various requirements

Concerning utilities, Equipment, and machine

Electrical Engineer

Jul 2018 - Aug 2022

DAEMYUNG, HDGSK JV, Karbala, Iraq

Managed Construction project activities involving working various requirements concerning utilities, machines, manpower & monitoring overall project Construction operations to ensure timely completion 230KV,100MVA Transformer, 2500 KVA Generator, Load Bank, NGR, Power and Control panels, Bus Duct, Road and Tower Lighting pole Installation Above and below Trench Trays Primary and Secondary Cable Laying, Cable Glanding Termination Visual, Continuity, Insulation Resistance Measurement, Winding Resistance Measurement, Hipot Test Polarity Check, Ratio Check, Magnetization Characteristics Check, Solo Run Tests, Lux Level Measurement Visual Inspection, Mechanical Checks, Electrical Checks coordinated with vendor, Condition Monitoring System-Site Acceptance Test/Functional Check

Electrical Site supervisor

Dec 2015 - Dec 2017

Joy Thomas Electro Mechanical, GASCO, ADNOC, Abu Dhabi, UAE

Managed Overall project maintenance operations activities involving working out various requirements for Installation, repair, and testing of HV, and LV electrical equipment. This includes motors, breakers, generator, and battery; cable Testing, jointing, glanding, and termination. & Fault rectifying of power and control circuit Erection and Maintenance of Battery Chargers & UPS Charge-discharge test, Recharge Test, Electrolyte Test, Maintenance of AC and DC Motors Testing of windings and cables using Insulation Tester Monitoring overall maintenance of CATHODIC protection and grounding Lightning Activities

Monitoring overall maintenance of Plant and Building Lighting & Small Power System Checks, Fault Rectification, Pre- energization and Lux Level Measurement, Visual, Continuity, Insulation Resistance Measurement, Winding Resistance Measurement, Torqueing, Solo Run Tests, Lux Level Measurement, Polarity Check, Ratio Check, Magnetization Characteristics Check, Minimum Voltage Trip and Close Operation Test, Timing Test, Measurement of CB Motor

Prepares and records all details of equipment maintenance, such as work carried out time involved etc.

MAXIMO for work order creation, approval, execution, labor reporting, and completion, along with necessary document attachments Inventory and Item Master, Preparation and approval of Material Request (MR), Purchase Request (PR), Item Creation and Modification Request (ICMR), Plant Change Request (PCR)

E&I Site Supervisor

Aug 2010 - Jun 2013

Sendan International Company Limited, SABIC, Specialty Chem, Jubail Port., Saudi Arabia

11KV/440V Transformers installation, SWGR, 480V MCC Switchgear panel Installation Above and below Trench Trays Primary and Secondary Cable Laying, Cable Glanding Termination Visual, Continuity, Insulation Resistance Measurement, Winding Resistance Measurement, Hipot Test Polarity Check, Solo Run Tests

Lighting & Small Power System Installation, Inspection Pre-energization & Lux Level Measurement Coordinate with maintenance, and service

department to perform breakdown and routine maintenance.
Follow work instructions, Job hazards analysis, and prepare pre-safety talk while performing the job Execute as per company procedures safely
Perform modification tasks and install electrical equipment according to electrical standards.

Shutdown planning and temporary facility arrangement, Managed shutdown project activities involving working out various requirements to utilities, machines, and manpower & monitoring overall project shut down operations to ensure timely work completion

Electrical Supervisor

Jul 2007 - Jun 2009

SK Engineering and Construction, Kuwait Oil Company, Ahemdhi, Kuwait
Regulated the complete quality control and electrical design review competence including engineering drawings like cable and panel layouts, system configuration and cable schedule Undertook additional liabilities Installation of the overall project (CPTR) Cathodic protection rectifiers, anodes installation testing, and Pre-Commissioning
EOT Cranes point to point Wire Checks, Limit Switches, Energization Functional Checks& Pre-Commissioning Visual, Continuity, Insulation Resistance Measurement, Winding Resistance Measurement, Hipot Test Polarity Check, Ratio Check, Magnetization Characteristics Check, Solo Run Tests, Lux Level Measurement
Motor Winding Resistance, Insulation Resistance, PI Values, Solo run Tests, and hand over to the Mechanical Completion Department

Project Electrical Engineer

Jun 2005 - Jun 2007

Lakshmi Engineering Private Limited, Coimbatore chemical Industries and Contracting Company, Coimbatore, India
Managed project activities involving working various requirements concerning utilities, machines, manpower & monitoring overall project Construction operations to ensure timely completion
Complies with safety conditions and practice on all equipment on which he is working and observes the work permit regulations
Performing modification tasks and installing electrical equipment following industrial standards

Labelled and industrial nitrogen powder is the new generation of fuels. It comes with a slightly different, proven industrial environment. It is formulated to provide high and steady efficiency, having been marketed for extensive use around the world, and provides the ability. Made exactly to arrange a more advanced environment with the help of industry for a complete burning experience. This is an issue of solid foundation of industry. The greatest idea of it is to provide a safe industrial environment and prevent the safety. The potential GDP potential is further enhanced by having strong idea and working through new & modern safety systems. The idea is to take a comprehensive approach to providing safe industrial environment and to ensure the safety of the industrial area in the world.

There are a number of other factors that may be important in determining the extent to which the above findings are generalizable to other populations. For example, the study was conducted in a relatively homogeneous population of young adults, and the results may not be generalizable to older populations or to populations with different levels of education or income. In addition, the study was conducted in a relatively homogeneous population of young adults, and the results may not be generalizable to older populations or to populations with different levels of education or income. In addition, the study was conducted in a relatively homogeneous population of young adults, and the results may not be generalizable to older populations or to populations with different levels of education or income.
